

REACH Declaration
EU Chemicals Regulation 1907/2006 EC art. 33 (2)

MN
20011

Printed documents not automatically updated.

Eugen Metzger GmbH has dealt with this regulation and is aware of the obligations arising from art. 33 (2) of Regulation (EC) 1907/2006 (REACH) as a link in the supply chain. We have taken the necessary measures to implement the requirements of the REACH regulation.

In detail we can inform you about:

1.) We are a manufacturer of articles and not of substances and we purchase articles and not substances from upstream suppliers. We do not manufacture substances or preparations in the sense of REACH and do not import any from outside the EU.

Therefore, we cannot fulfill any manufacturer obligations according to REACH (authorization, registration, etc.). This results in neither a pre-registration obligation nor a registration obligation of substances or preparations according to REACH for us.

2.) According to the REACH Regulation, art. 33 (2), we are obliged to provide our customers with the information sufficient for safe use (at least the substance name), if the articles distributed by us would contain more than 0.1% by mass of substances or preparations of concern.

3.) The obligation to register substances in articles according to art. 7 (2-4) of the REACH Regulation only concerns articles where a substance is intended to be released during the intended use.

Since lead is firmly bound as an alloying element in our articles and is not released during intended use, no information on safe use is required.

4.) We will notify our customers as part of our duty to inform under REACH as soon as we have relevant knowledge.

5.) Our REACH representative is:

Mr. Franz Englmann
 Trudendorfer Str. 2
 94327 Bogen
 Germany

Tel.: +49 9422 8502-67
 Fax: +49 9422 8502-48
 E-Mail: f.englmann@metzger-fluid.de

6.) The following products distributed by us contain substances requiring information with > 0.1 mass %.

Substance: - Bis(2-ethyl(hexyl)phthalate), (DEHP, DOP), CAS No. 1117-81-7, EC No. 204-211-0/2.

Products: - Low pressure fuel hoses type PZ, VA-PZ, PZA, PZG.
 - O-ring boxes of type M1 and Z1.

Substance: - Lead (Pb), CAS No. 7439-92-1, EC No. 231-100-4.

Products: - Lead alloyed mild steel and brass products
